

SOUTHERN SEVEN HEALTH
DEPARTMENT

SEWAGE ALARM VARIANCE REQUEST

I _____ request a variance to the Illinois Private Sewage Disposal Licensing Act and Code Section 905.20 General Requirements, subsection k) requiring alarms to be placed inside the residence.

I understand that in allowing the alarm to be placed outside of the residence, the system is to be wired in accordance with the National Electrical Code. The alarm power supply for the alarm shall be on a dedicated circuit. The design of the alarm shall meet the requirements specified in Section 5.8 of NSF International/ANSI Standard 40 requirements. The alarm shall be housed in a weatherproof box.

Electrical devices shall be provided with an electrical disconnect that is within sight of and not more than 50 feet away from the device.
